**INTRODUCTION:**

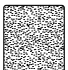

These designs are only a few of the possibilities achievable with **Stone Sett**, **Fineline** or **Colonnade**. Use one size of stone to form a simple grid or combine different stones to create intricate random patterns. Some of the many patterns achievable are shown on the following pages.

**Stone Sett** and **Fineline** pavers are available in three separate bundle configurations.

**Standard Bundle**

 is comprised entirely of 6 x 6 stones.  
(150 x 150 x 60mm)

**Combination Bundle**

 is a mixture of small 3 x 6 and large 6 x 9 stones.  
(75 x 150 x 60mm)  
 (150 x 225 x 60mm)  
4:1 Ratio (6x9:3x6)

**Jumbo Bundle**

 is comprised entirely of 9 x 9 stones.  
(225 x 225 x 60mm)  
(Not available in Colonnade)

**Colonnade** is available with individual module bundle configurations.

**6x6 Bundle**

 is comprised entirely of 6 x 6 stones.

**6x9 Bundle**

 is comprised entirely of 6 x 9 stones.

**3x6 Bundle**

 is comprised entirely of 3 x 6 stones.

Percentages are based on highlighted areas of repeated patterns.

**MISCELLANEOUS INFORMATION:**

- " Refer to *Oaks Packaging Specification Booklet* for bundle configurations.
- " In the Stone Sett and Fineline combination bundle, the large stones (6 x 9) and small stones (3 x 6) are packaged in a 4:1 ratio respectively. Therefore, when installing, the same ratio should be followed.
- " All design drawings may be expanded or reduced according to each individual design requirement.
- " Stone Sett and Fineline (6 x 9) stones are generally used also for soldier coursing. A bundle will yield 142 linear feet laid side by side. Colonnade (6 x 9) stones will yield 132 linear feet laid side by side.
- " The Stone Sett and Fineline 9 x 9 stone can also be used for soldier coursing. A bundle of 9 x 9 Stone Sett or Fineline will yield 133 linear feet. 9 x 9 stone is not available in the Colonnade Series.
